Bibliography
Physics of the Earth and Planetary Interiors
Volumes 1-50

0001 **Abdullah, Y.; El-Nikhely, A.; and Ibrahim, N.** The maximum-slope method for the interpretation of electrical soundings over two horizontal layers 32(3): 265-272

0002 **Abe, K.** Determination of seismic moment and energy from the Earth's free oscillation 4(1): 49-61

0003 **Abe, K.** Focal process of the South Sandwich Islands earthquake of May 26, 1964 5(2): 110-122

0004 **Abe, K.** Lithospheric normal faulting beneath the Aleutian Trench 5(3): 190-198

0005 **Abe, K.** Mechanisms and tectonic implications of the 1966 and 1970 Peru earthquakes 5(5): 367-379

0006 **Abe, K.** Group velocities of oceanic Rayleigh and Love waves 6(5): 391-396

0007 **Abe, K.** Tsunami and mechanism of great earthquakes [with comment] 7(2): 143-153

0008 **Abe, K.** Magnitudes of large shallow earthquakes from 1904 to 1980 27(1): 72-92

0009 **Abe, K.** Physical size of tsunamigenic earthquakes of the northwestern Pacific 27(3): 194-205

0010 **Abe, K.** Complements to "Magnitudes of large shallow earthquakes from 1904 to 1980" 34(1-2): 17-23

0011 **Abe, K.** Quantification of major earthquake tsunamis of the Japan Sea 38(4): 214-223

0012 **Abe, K.** Re-evaluation of the large deep earthquake of January 21, 1906 39(3): 157-166

0013 **Abe, K.; and Noguchi, S.** Determination of magnitude for large shallow earthquakes 1898-1917 32(1): 45-59

0014 **Abe, K.; and Noguchi, S.** Revision of magnitudes of large shallow earthquakes, 1897-1912 33(1): 1-11

0015 **Abeland, P.; and Baumard, J. F.** Electric and dielectric properties of forsterite between 400 and 900°C 23(2): 98-102

0016 **Abrahamsen, N.; and Knudsen, K. L.** Indication of a geomagnetic low-inclination excursion in supposed middle Weichselian interstadial marine clay at Rubjerg, Denmark 18(3): 238-246

0017 **Abrahamsen, N.; and Marcussen, C.** Magnetostratigraphy of the Plio-Pleistocene Kap Kobenhavn Formation, eastern North Greenland 44(1): 53-61

0018 **Abrahamsen, N.; and Readman, P. W. (editors).** Paleomagnetism, age dating and sedimentology of young sediments 44(1): 1-71

0019 **Abramovici, F. (reviewer).** Seismic wave propagation in stratified media [book review] 43(3): 253-255

0020 **Abranches, M. C. B.; and Storetvedt, K. M.** Palaeomagnetic evidence for the origin of Madeira 34(3): 137-149

0021 **Achache, J.; Courtillot, V.; Ducruix, J.;** *et al.* The late 1960's secular variation impulse; further constraints on deep mantle conductivity 23(1): 72-75

0022 **Acharya, H. K.** Analysis of seismicity of central Luzon by pattern recognition 24(1): 53-65

0023 **Adam, A.** Two kinds of characteristic ΔZ conductivity anomaly in West Hungary and their appearance in R.T.F.S. and M.T.S. 7(4): 486-490

0024 **Adam, A.** Geothermal effects in the formation of electrically conducting zones and temperature distribution in the Earth 17(2): P21-P28

0025 **Adam, A.** Are there two types of conductivity anomaly (CA) caused by fluid in the crust? 45(2): 209-215

0026 **Adam, A.; Szarka, L.; Vero, J.;** *et al.* Magnetotellurics (MT) in mountains; noise, topographic and crustal inhomogeneity effects 42(3): 165-177

0027 **Adam, A.; Vanyan, L. L.; Varlamov, D. A.;** *et al.* Depth of crustal conducting layer and asthenosphere in the Pannonian Basin determined by magnetotellurics 28(3): 251-260

0028 **Adams, R. D. (reviewer).** Dams and earthquakes; Developments in geotechnical engineering; 11 [book review] 12(1): 89-90

0029 **Adams, R. D. (reviewer).** Dams and earthquakes; Developments in geotechnical engineering; 11 [book review] 13(1): 83-84

0030 **Adams, R. D. (reviewer).** Seismic risk and engineering decisions; Developments in geotechnical engineering; 15 [book review] 15(1): 107

0031 **Adams, R. D.** The New Zealand seismograph network 18(2): 114-120

0032 **Adams, R. D. (reviewer).** Earthquake precursors; proceedings of the U.S.-Japan seminar on theoretical and experimental investigations of earthquake precursors; Advances in Earth and planetary sciences; 2 [book review] 18(2): 165-166

0033 **Adams, R. D. (reviewer).** Identification of seismic sources; earthquake or underground explosion [book review] 31(2): 186

0034 **Adams, R. D.; and Engdahl, E. R.** P-wave velocities in the Earth's core; an interim report 9(1): 36-40

0035 **Adams, R. D.; Hughes, A. A.; and McGregor, D. M.** Analysis procedures at the International Seismological Centre 30(2-3): 85-93

0036 **Agarwal, A. K.; Singh, B. P.; and Nityananda, N.** Regional character of induced magnetic variations in India 18(3): 232-237

0037 **Agarwal, A. K.; Singh, B. P.; Rastogi, R. G.;** *et al.* On utility of space-borne vector magnetic measurements in crustal studies 41(4): 260-268

0038 **Agrawal, R. C.** Travel times of P from deep-focus Indian earthquakes 17(3): 232-248

0039 **Ahrens, T. J.** The mineralogic distribution of iron in the upper mantle 5(4): 267-281

0040 **Ahrens, T. J.** Petrologic properties of the upper 670 km of the Earth's mantle; geophysical implications 7(2): 167-186

0041 **Ahrens, T. J.; and Thomsen, L.** Application of the fourth-order anharmonic theory to the prediction of equations of state at high compressions and temperatures 5(4): 282-294

0042 **Ahrens, T. J. (editor); Tozer, D. C. (editor); and European Geophysical Society.** Lateral heterogeneity in the lithosphere, symposium, part of the meeting of the European Geophysical Society 33(3): 149-242

0043 **Akaogi, M.; and Akimoto, S.** Pyroxene-garnet solid-solution equilibria in the systems $Mg_4Si_4O_{12}$-$Mg_3Al_2Si_3O_{12}$ and $Fe_4Si_4O_{12}$-$Fe_3Al_2Si_3O_{12}$ at high pressures and temperatures 15(1): 90-106

0044 **Akaogi, M.; and Akimoto, S.** High-pressure phase equilibria in a garnet lherzolite, with special reference to Mg^{2+}-Fe^{2+} partitioning among constituent minerals 19(1): 31-51

0045 **Akaogi, M.; and Navrotsky, A.** The quartz-coesite-stishovite transformations; new calorimetric measurements and calculation of phase diagrams 36(2): 124-134

0046 **Aki, K. (reviewer).** Global tectonics and earthquake risk [book review] 8(4): 391-392

0047 **Aki, K.** Attenuation of shear-waves in the lithosphere for frequencies from 0.05 to 25 Hz 21(1): 50-60

0048 **Aki, K.** Scattering and attenuation of high-frequency body waves (1-25 Hz) in the lithosphere 26(4): 241-243

0049 **Akimoto, S.** High-pressure synthesis of a "modified" spinel and some geophysical implications 3: 189-195

0050 **Akimoto, S.; and Akaogi, M.** The system Mg_2SiO_4-MgO-H_2O at high pressures and temperatures; possible hydrous magnesian silicates in the mantle transition zone 23(4): 268-275

0051 **Akimoto, S.; and Sato, Y.** High-pressure transformation in Co_2SiO_4 olivine and some geophysical implications 1(7): 498-504

0052 **Akimoto, S.; and Syono, Y.** High-pressure decomposition of the system $FeSiO_3$-$MgSiO_3$ 3: 186-188

0053 **Alessandrini, B.; Papi, G. M.; de Franceschi, G.;** *et al.* The secular variation of the geomagnetic field and the shape of the Earth 48(1-2): 84-114

0054 **Alfven, H.** Origin of cosmic magnetic fields 20(2-4): 185-191

0055 **Allan, T. D. (reviewer).** Remote assessment of ocean color for interpretation of satellite visible imagery [book review] 37(4): 292

0056 **Alldredge, L. R.** A study of alternative schemes for extrapolation of secular variation at observatories 11(4): P18-P25

0057 **Alldredge, L. R.** More on the alleged 1970 geomagnetic jerk 39(4): 255-264

0058 **Allegre, C. J. (reviewer).** Metal deposits in relation to plate tectonics [book review] 37(4): 288

0059 **Allegre, C. J.; Ben Othman, D.; Polve, M.;** *et al.* The Nd-Sr isotopic correlation in mantle materials and geodynamic consequences 19(4): 293-306

0060 **Allegre, C. J.; and Didier, J. (editors).** Granitoids 35(1-3): 1-221

0061 **Allen, C. C.** Rayed craters on the Moon and Mercury 15(2-3): 179-188

0062 **Alm, O.; Jaktlund, L.; and Kou Shaoquan.** The influence of microcrack density on the elastic and fracture mechanical properties of Stripa Granite 40(3): 161-178

0063 **Al'tshuler, L. V.** Composition and state of matter in the deep interior of the Earth 5(4): 295-300

0064 **Alvarez, H.** Some aspects of earthquake occurrence to the southeast of Cuba 9(3): 193-198

0065 **Anderson, D. L.** A seismic equation of state; II, Shear properties and thermodynamics of the lower mantle 45(4): 307-323

0066 **Anderson, D. L.; and Hart, R. S.** Attenuation models of the Earth 16(4): 289-306

0067 **Anderson, D. L.; and Jordan, T.** The composition of the lower mantle 3: 23-35

0068 **Anderson, D. L.; and Kovach, R. L.** The lunar interior 6(1-3): 116-122

0069 **Anderson, D. L.; and Sammis, C.** Partial melting in the upper mantle 3: 41-50

0070 **Anderson, D. L.; and Spetzler, H.** Partial melting and the low-velocity zone 4(1): 62-64

0071 **Anderson, K. R.** Robust earthquake location using M-estimates 30(2-3): 119-130

0072 **Anderson, O. L.** On the use of ultrasonic and shock-wave data to estimate compressions at extremely high pressures 1(3): 169-176

0073 **Anderson, O. L.** Shockwave determination of the shear velocity at very high pressures 6(1-3): 136-140

0074 **Anderson, O. L.** The high-temperature acoustic Grueneisen parameter in the Earth's interior 18(3): 221-231

0075 **Anderson, O. L.** An experimental high-temperature thermal equation of state bypassing the Grueneisen parameter 22(3-4): 173-183

0076 **Anderson, O. L.** Are anharmonicity corrections needed for temperature-profile calculations of interiors of terrestrial planets? 29(1): 91-104

0077 **Anderson, O. L.; and Liebermann, R. C.** Equations for the elastic constants and their pressure derivatives for three cubic lattices and some geophysical applications 3: 61-85

0078 **Anderson, O. L.; and Liebermann, R. C. (editors).** Physics and chemistry of the lower mantle and the core 18(1): 1-34

0079 **Anderson, O. L.; and Sumino, Y.** The thermodynamic properties of the Earth's lower mantle 23(4): 314-331

0080 **Anderson, R. A. (reviewer).** Proceedings of the Second lunar science conference [book review] 5(5): 436-438

0081 **Anderssen, R. S.** On the inversion of global electromagnetic induction data 10(3): 292-298

0082 **Anderssen, R. S.; and Cleary, J. R.** Estimation of PKP times from ISC data 23(3): 207-214

0083 **Anderssen, R. S.; Devane, J. F.; Gustafson, S. A.;** *et al.* The qualitative character of the global electrical conductivity of the Earth 20(1): P15-P21

0084 **Ando, M.** A fault model of the 1946 Nankaido earthquake derived from tsunami data 28(4): 320-336

0085 **Anghel, M.; and Demetrescu, C.** The effect of solar activity on the secular variation of the geomagnetic field in Romania 22(1): 53-59

0086 **Anonymous.** Continental drift, secular motion of the pole, and rotation of the Earth [book review] 2(4): 301

0087 **Anonymous.** The drifting continents [book review] 6(5): 426

0088 **Anonymous.** Mining geophysics [book review] 8(3): 297

0089 **Anonymous.** In memoriam; Keith Edward Bullen (1906-1976) 14(4): 1-4

0090 **Ansell, J.; and Adams, D.** Unfolding the Wadati-Benioff zone in the Kermadec-New Zealand region 44(3): 274-280

0091 **Ansell, J. H.** The location and mislocation of subcrustal earthquakes 17(2): P1-P6

0092 **Ansell, J. H.** The decoupling of P and S waves in inhomogeneous media 26(4): 246-249

0093 **Ansorge, J.; and Mereu, R. F. (editors).** Probing the Earth's lithosphere by controlled source seismology; proceedings of a symposium organized by the IASPEI Commission on Controlled Source Seismology at the 21st IASPEI General Assembly 31(4): 277-383

0094 **Appel, E.** Stress anisotropy in Ti-rich titanomagnetites 46(1-3): 233-240

0095 **Arkani-Hamed, J.; and Toksoz, M. N.** Thermal evolution of Venus 34(4): 232-250

0096 **Arora, B. R.** Perturbation arrows and hypothetical event analysis in geomagnetic induction studies; experimental results from Northwest India 45(2): 128-136

0097 **Arora, B. R.; and Mahashabde, M. V.** A transverse conductive structure in the Northwest Himalaya 45(2): 119-127

0098 **Arora, S. K.; and Basu, T. K.** A seismic event on August 20, 1983; double explosion or a single earthquake 40(4): 309-315

0099 **Arsene, G.; and Moldoveanu, N. (reviewers).** Exploration seismology [book review] 39(1): 72-73

0100 **Artemjev, M. E.; Bune, V. I.; Dubrovsky, V. A.; *et al.*** Seismicity and isostasy 6(4): 256-262

0101 **Artyushkov, E. V.** Density differentiation on the core-mantle interface and gravity convection 2(5): 318-325

0102 **Ashcroft, W. (reviewer).** An introduction to seismic interpretation [book review] 46(4): 391-392

0103 **Ashkenazi, V.; and Dodson, A. H. (reviewers).** Geodetic refraction; effects of electromagnetic wave propagation through the atmosphere [book review] 41(4): 293-294

0104 **Ashour, A. A.** Theoretical models for electromagnetic induction in the oceans 7(3): 303-312

0105 **Astiz, L.; and Kanamori, H.** An earthquake doublet in Ometepec, Guerrero, Mexico 34(1-2): 24-45

0106 **Atanasiu, C.; Nestianu, T.; Demetrescu, C.; *et al.*** Some aspects of the secular variation of the geomagnetic elements H,Z and F between 1958-1974 in Romania 12(1): P11-P17

0107 **Ates, R.** Turkish strong ground motion data acquisition and analysis 38(2-3): 123-133

0108 **Athavale, R. N.; and Sharma, P. V.** Preliminary paleomagnetic results on some Triassic rocks from East Greenland 9(1): 51-56

0109 **Atkinson, B. K. (reviewer).** Creep of crystals [book review] 41(1): 70

0110 **Aubert, M.** Oceanic area's influence on the range of multi-annual variations of the Earth's magnetic field in France 9(4): 364-366

0111 **Auer, F.; and Berckhemer, H.** Deep focus earthquakes as triggered dislocation processes 6(4): 300-305

0112 **Baath, M.** Short-period Rayleigh waves from near-surface events 10(4): 369-376

0113 **Baath, M.** Surface-wave magnitude corrections for intermediate and deep earthquakes 37(4): 228-234

0114 **Babuska, V.; Fiala, J.; Kumazawa, M.; *et al.*** Elastic properties of garnet solid-solution series 16(2): 157-176

0115 **Backus, G.; and Hough, S.** Some models of the geomagnetic field in Western Europe from 1960 to 1980 39(4): 243-254

0116 **Backus, G. E.** The electric field produced in the mantle by the dynamo in the core 28(3): 191-214

0117 **Baer, A. J.** An unconventional Proterozoic paleomagnetic polar wander path for North America and its advantages 19(1): 100-105

0118 **Bagin, V. I.; Brodskaya, S. Y.; Pechersky, D. M.; *et al.*** The distribution of Curie points in basalts from different types of Earth's crust 2(5): 378-380

0119 **Bagina, O. L.; and Petrova, G. N.** Determination of paleomagnetic field intensity using anhysteretic remanent magnetization 13(4): 363-367

0120 **Bailey, M. E.; and Dunlop, D. J.** On the use of anhysteretic remanent magnetization in paleointensity determination 13(4): 360-362

0121 **Bailey, R. C.** Global geomagnetic sounding; methods and results 7(3): 234-244

0122 **Baker, F. W. G. (reviewer).** The Northern Light; from mythology to space research [book review] 39(2): 141

0123 **Baker, P. A.; and Weber, J. N.** Coral growth rate; variation with depth 10(2): 135-139

0124 **Baldwin, R. B.** The question of isostasy on the Moon 4(3): 167-179

0125 **Baldwin, R. B.** The tsunami model of the origin of ring structures concentric with large lunar craters 6(5): 327-339

0126 **Banda, E.; Udias, A.; Mueller, S.;** *et al.* Crustal structure beneath Spain from deep seismic sounding experiments 31(4): 277-280

0127 **Banerdt, W. B.; and Sammis, C. G.** An evaluation of finite strain equations of state using a lattice model 23(1): 31-38

0128 **Banerdt, W. B.; and Sammis, C. G.** Low stress high temperature creep in single crystal NaCl 41(2-3): 108-124

0129 **Banerjee, S. K.; and Butler, R. F.** Theoretical grain-size thresholds and their application to accurate methods for paleointensity determination 13(4): 268-271

0130 **Banghar, A. R.** Synthetic P-wave seismograms for the Kinnaur (Himachal Pradesh, India) earthquake of January 19, 1975 32(4): 331-341

0131 **Banks, R. J.** Data processing and interpretation in geomagnetic deep sounding 7(3): 339-348

0132 **Banno, S.** Classification of eclogites in terms of physical conditions of their origin 3: 405-421

0133 **Barbetti, M. F.; McElhinny, M. W.; Edwards, D. J.;** *et al.* Weathering processes in baked sediments and their effects on archaeomagnetic field-intensity measurements 13(4): 346-354

0134 **Barcilon, V.** On the solution of the inverse problem with an amplitude and natural frequency data; Part I 13(1): P1-P8

0135 **Barker, F.; and Arth, J. G.** Preliminary results, Central Gneiss Complex of the Coast Range Batholith, southeastern Alaska; the roots of a high-K, calc-alkaline arc? 35(1-3): 191-198

0136 **Barker, F. S.; and Barraclough, D. R.** The effects of the non-uniform distribution of magnetic observatory data on secular variation models 37(1): 65-73

0137 **Barraclough, D. R.** Spherical harmonic analysis of the geomagnetic secular variation; a review of methods 12(4): 365-382

0138 **Barraclough, D. R. (editor).** Mathematical modelling of the geomagnetic main field and secular variation, and its applications 37(1): 1-86

0139 **Barraclough, D. R.** International Geomagnetic Reference Field; the fourth generation 48(3-4): 279-292

0140 **Barraclough, D. R.** International Geomagnetic Reference Field Revision 1987 50(2): 209-213

0141 **Barraclough, D. R.; and Kerridge, D. J.** BGS candidate models for the 1985 revision of the International Geomagnetic Reference Field 48(3-4): 306-312

2051 **Winch, D. E.** Analysis of the geomagnetic field by means of Cartesian components 1(5): 347-360

2052 **Winch, D. E.** New recurrence relations for spherical harmonic functions and their derivatives 1(6): 396-400

2053 **Winch, D. E. (reviewer).** Introduction to theoretical geophysics [book review] 10(4): 382

2054 **Winch, D. E.; and James, R. W.** Multipole analysis of the international geomagnetic reference field 2(3): 163-165

2055 **Winch, D. E.; McEwin, A. J.; and Barton, C. E.** Evaluation of IGRF candidate models over the Australian region 48(3-4): 338-343

2056 **Windley, B. F. (reviewer).** The continental crust; its composition and evolution [book review] 42(3): 196-197

2057 **Woidt, W. D.; and Neugebauer, H. J.** Finite element models of density instabilities by means of bicubic spline interpolation 21(2-3): 176-180

2058 **Woirgard, J.; and Gueguen, Y.** Elastic modulus and internal friction in enstatite, forsterite and peridotite at seismic frequencies and high temperatures 17(2): 140-146

2059 **Wood, B. J. (reviewer).** Fluids in the Earth's crust [book review] 18(3): 252-253

2060 **Wood, B. J.; and Strens, R. G. J.** The crystallisation of lunar basalts 4(3): 222-225

2061 **Woodhouse, J. H.** A note on the calculation of travel times in a transversely isotropic Earth model 25(4): 357-359

2062 **Woods, D. V.; and Allard, M.** Reconnaissance electromagnetic induction study of the Kapuskasing structural zone; implications for lower crustal conductivity 42(3): 135-142

2063 **Woollard, G. P.** Evaluation of the isostatic mechanism and role of mineralogic transformations from seismic and gravity data 3: 484-498

2064 **Worm, H. U.; and Markert, H.** Magnetic hysteresis properties of fine particle titanomagnetites precipitated in a silicate matrix 46(1-3): 84-92

2065 **Worm, H. U.; and Markert, H.** The preparation of dispersed titanomagnetite particles by the glass-ceramic method 46(1-3): 263-269

2066 **Wortel, M. J. R.; and Vlaar, N. J.** Age-dependent stubduction of oceanic lithosphere beneath western South America 17(3): 201-208

2067 **Wright, C.** Regional travel-time and slowness measurements for P-waves in the distance range 40-57° 32(2): 168-181

2068 **Wright, C.; and Cleary, J. R.** P wave travel-time gradient measurements for the Warramunga seismic array and lower mantle structure 5(3): 213-230

2069 **Wright, C.; and Hoy, D.** A note on pulse broadening and anelastic attenuation in near-surface rocks 25(1): P1-P8

2070 **Wright, C.; and Lyons, J. A.** The identification of radial velocity anomalies in the lower mantle using an interference method 18(1): 27-33

2071 **Wyllie, P. J.** Sources of granitoid magmas at convergent plate boundaries 35(1-3): 12-18

2072 **Wyss, M.; and Molnar, P.** Source parameters of intermediate and deep focus earthquakes in the Tonga Arc 6(4): 279-292

2073 **Xie, L.** The main features of data processing procedure for strong-motion records in China 38(2-3): 134-143

2074 **Xiong, D. H.; Ming, L. C.; and Manghnani, M. H.** High-pressure phase transformations and isothermal compression in $CaTiO_3$ (perovskite) 43(3): 244-252

2075 **Xu Yuanfang; Sun Fangyou; and An Chenchang.** Some characteristics of the geomagnetic field and its secular variation in and near China in the last 20 years 37(1): 52-64

2076 **Yagi, T.; and Akimoto, S.** Electrical conductivity jump produced by the α-β-δ transformation in Mn_2GeO_4 8(3): 235-240

2077 **Yagi, T.; Ida, Y.; Sato, Y.; *et al.*** Effect of hydrostatic pressure on the lattice parameters of Fe_2SiO_4 olivine up to 70 kbar 10(4): 348-354

2078 **Yamashina, K.** A possible factor which triggers shallow intra-plate earthquakes 18(2): 153-164

2079 **Yegorkin, A. V.; and Pavlenkova, N. I.** Studies of mantle structure of USSR territory on long-range seismic profiles 25(1): 12-26

2080 **Yegorov, L. V.; Chernyak, E. L.; Palshin, N. A.; *et al.*** Numerical thin-sheet modelling of the telluric field distortions by the hybrid technique; I. Theory and an example for the Baltic Shield 33(1): 56-63

2081 **Young, C. J.; and Lay, T.** Evidence for a shear velocity discontinuity in the lower mantle beneath India and the Indian Ocean 49(1-2): 37-53

2082 **Yuen, D. A.; and Fleitout, L.** Stability of the oceanic lithosphere with variable viscosity; an initial-value approach 34(3): 173-185

2083 **Yuen, D. A.; and Sabadini, R.** Secular rotational motions and the mechanical structure of a dynamical viscoelastic Earth 36(3-4): 391-412

2084 **Yuen, D. A.; Sabadini, R.; and Boschi, E.** The dynamical equations of polar wander and the global characteristics of the lithosphere as extracted from rotational data 33(3): 226-242

2085 **Yukutake, H.; and Shimada, M.** Thermal conductivity of NaCl, MgO, coesite and stishovite up to 40 kbar 17(3): 193-200

2086 **Yukutake, T.** Free decay of non-dipole components of the geomagnetic field 1(2): 93-96

2087 **Yukutake, T.** Review of the geomagnetic secular variations on the historical time scale 20(2-4): 83-95

2088 **Yukutake, T.** A stratified core motion inferred from geomagnetic secular variations 24(4): 253-258

2089 **Yukutake, T.** A preliminary study on variations in the Gauss coefficients of the geomagnetic potential over several hundred years 39(4): 217-227

2090 **Zahel, W.** Mathematical modelling of global interaction between ocean tides and Earth tides 21(2-3): 202-217

2091 **Zelinka, T.; Hejda, P.; and Kropacek, V.** The vibrating-sample magnetometer and Preisach diagram 46(1-3): 241-246

2092 **Zharkov, V. N.** Thermal state and thermal regime of the Earth's interior 41(2-3): 133-137

2093 **Zharkov, V. N.; Kalinin, V. A.; and Panjkov, V. L.** Equations of state and their geophysical applications 5(4): 332-343

2094 **Zharkov, V. N.; Karpov, P. B.; and Leontjev, V. V.** On the thermal regime of the boundary layer at the bottom of the mantle 41(2-3): 138-142

2095 **Zharkov, V. N.; and Trubitsyn, V. P.** Internal constitution and the figures of the giant planets 8(1): 105-107

2096 **Zharkov, V. N.; Zasursky, I. J.; Trubitsyn, V. P.;** *et al.* The Grueneisen parameter, the melting curve and the adiabatic gradient for mantle and core 22(3-4): 165-172

2097 **Zi Jun Gan; and Tung, C. C.** Extreme value distribution of earthquake magnitude 32(4): 325-330

2098 **Zidarov, D. P.** Earth's magnetic field modelling and Earth's structure and evolution 37(1): 74-86

2099 **Zimmerman, J. T. F. (reviewer).** North Sea dynamics [book review] 34(4): 275-276

2100 **Zurn, W.; Richter, B.; Rydelek, P. A.;** *et al.* Detection of inertial gravity oscillations in the Earth's core with a superconducting gravimeter at Brussels 49(1-2): 176-178

2101 **Zussman, J. (reviewer).** The Moon; a new appraisal from space missions and laboratory analyses [book review] 15(1): 112

2102 **Zvegintsev, A. G.** Magnetic properties of synthetic titanomagnetites [abstr.] 30(4): 334
